

Miguel Vladimir Torres Dávila

Full Stack Developer | AGENTIC & SPEC-DRIVEN WORKFLOWS

+52 492 181 8826 | vladimir.tordavi@gmail.com | linkedin.com/in/vladimir-tordavi | vladimir-torres.miraidev.com

PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years of experience building enterprise web applications and reactive microservices. Currently specializing in Java 21 / Spring WebFlux for BIAN-compliant financial microservices at Diners Club Ecuador. Proven ability to leverage AI development tools (Kiro, Claude Code) with structured methodologies — steering files, spec-driven planning, and playbooks — to accelerate delivery and reduce rework. Strong across the full stack: React / TypeScript on the frontend, Node.js and Java on the backend, with solid DevOps practices (Docker, Kubernetes, Azure Pipelines, AWS).

EXPERIENCE

DIGITAL CHALLENGERS — Client: Diners Club Ecuador | Remote | Feb 2025 – Present

Java Developer — BIAN Microservices

- Developing BIAN-compliant reactive microservices for Diners Club Ecuador's core banking platform.
- Java 21 · Spring Boot 3.5 · Spring WebFlux — non-blocking I/O (Mono/Flux) for high-concurrency financial operations.
- Implemented Hexagonal Architecture (Ports & Adapters) ensuring full domain isolation and independent testability.
- Event-driven architecture: implemented and tested AWS SQS message queues for async inter-service communication in MSL (outbound messaging) flows.
- Infrastructure: AWS EC2 provisioning, Kubernetes cluster deployments, Azure Pipelines CI/CD, AWS KMS encryption/decryption.
- AI-augmented workflow: authored steering files providing persistent context to AI agents across the full microservice lifecycle.
- Applied playbook-driven methodology — structured domain analysis and spec definition before AI execution, reducing hallucinations and rework.
- Tools: Kiro (Amazon), Claude Code (Anthropic) for spec generation, code scaffolding, and implementation acceleration.

CWVL CONSULTORÍA | Aguascalientes, México | Oct 2021 – Nov 2024

Full Stack Developer

- Led the IT team; built a full tool ecosystem that increased end-client trust by 30%.
- Developed a custom CRM (React + Node.js + PostgreSQL) for franchisee lead management, improving operational efficiency by 80%.
- Built parameterized React landing pages for franchisees with dynamic URL-based data, improving engagement by 30%.
- Developed a React SPA with interactive state map for franchisee search.
- Integrated WhatsApp API into a Node.js microservice linked to a chatbot for automated lead distribution, increasing sales by 30%.
- Configured and deployed ISSABEL PBX on AWS EC2 (Linux Red Hat) for telemarketing, reducing lead acquisition costs by 75%.
- Negotiated SIP trunk agreements achieving a 71% reduction in per-call cost (\$0.21 to \$0.06).
- Dockerized all projects; configured GCP Cloud Storage for CRM file management.

OUTDEV GLOBAL | Guadalajara, Jalisco | May 2021 – Oct 2021

Full Stack Developer

- Developed backend modules in Django for the Investment Smart System (SII).
- Built the SII mobile application using Flutter.
- Successfully deployed SII to both the App Store and Google Play Store.

CIESOFT | Zacatecas, Zac | Oct 2019 – Jul 2020

Internship Full Stack Developer

- Developed backend modules in Java for the Hospital Management System (BlueHealth).
- Built frontend components for BlueHealth using ReactJS.

TECHNICAL SKILLS

Backend: Java 21, Spring Boot 3.5, Spring WebFlux, Project Reactor, Node.js, Express, Python, Django, REST, SOLID, Hexagonal Architecture, BIAN

Frontend: React, TypeScript, Next.js, Flutter, SCSS, HTML5

Database: PostgreSQL, MySQL, MongoDB

DevOps & Cloud: Docker, Kubernetes, AWS EC2, AWS SQS, AWS KMS, Azure Pipelines, CI/CD, Linux

Agentic & AI-Assisted Dev: Claude Code (Anthropic) · Kiro (Amazon) · Agentic Coding · Spec-Driven Development · MCP (configuration & integration) · Steering Files · AI Playbooks · Planning-First Methodology

Tools & Methods: Git, GitHub, GitLab, JIRA, SCRUM, Kanban, Postman, Swagger, Figma, Unit Testing, Jest

SOFT SKILLS

Proactive | Leadership | Clear Communication | Self-Taught | Clean Coder | Resilient | Hard Worker | Problem Solver

EDUCATION

INSTITUTO TECNOLÓGICO SUPERIOR DE JEREZ | Jerez, Zac | 2017 – 2021

Computer Systems Technician

LANGUAGES

Spanish — Native | English — B1 Intermediate

FREELANCE PROJECTS

MIRAIDEV (miraidev.com) — Freelance agency managing client web projects:

- TORDAVI International (tordavi.com) — Business consulting
- LOZART (lozartceramica.com) — Artisan ceramics e-commerce
- ZENTRO PRANA (zentroprana.com) — Wellness center
- MANPRO SERVICE (manproservice.com) — Professional services
- HOTEL SAN JUDAS TADEO (hotelsanjudastadeo.com) — Hospitality
- BB CONSULTORES (bbconsultores.com) — Business consulting
- RF ELECTROMECHANICA (rfelectromecanica.com) — Industrial services
- MEMBE (membe.mx) — Digital membership platform
